CLIENTS

Some of the people we have worked for over the past six years:

Ford Coca Cola Zain Vodacom Airtel The Leon H Sullivan Foundation
University of New Hampshire Seton Hall University Oxfam America Malaria No More
The Mastercard Foundation Cooper Motors Corporation FBME Bank Hodi Hotels

PRIVATE & UNIQUE EVENTS

WHAT DO WE DO?

We plan all aspects of your event be it a bar mitzvah or special birthday. Our access to venues is wide ranging from hotels & sporting venues to castles all over the world along with access to great international caterers. To go that extra step, the venue needs to look beautiful so our florists, props department, lighting technicians and fabric teams will transform a regular ballroom into a 1930's club in Havana. For entertainment, if you want a platinum selling Grammy winner or the UK's number one ABBA tribute band, we can get them. Our events team will be there in the run up to the event to co-ordinate and manage all the elements and work with you. Then on the day, the team are the first ones in and the last ones out ensuring that everything is planned and executed correctly. Contact us now for more information about this service.

WHAT HAVE WE DONE RECENTLY?

Our team recently completed a party for 75 people at a historic villa owned by the Italian Heritage Trust on the shores of Lake Como. The event was spilt into a cocktail party and then a sit down dinner followed by dancing and a performance by a Grammy nominated music group. The event went "off" without a hitch and the clients were dancing through the night enjoying some fine wine and the views of Lake Como, which was lit up by a full moon.

Our team have worked for a number of years with a hotel in Africa to assist with their New Years Eve event. We helped re-launch the event several years ago and since then have helped it grow year on year in challenging economic times. The attendance is usually 250 to 300 people and with international entertainment, grand buffet and a fantastic fireworks display, the event is always a success.

WHAT IDEAS CAN WE GIVE YOU?

Don't be afraid if the event is special to think "outside the box". If your son likes planes, why not the Hendon RAF Air Museum. They have an event space around the planes and it makes for a different and original event. Also for events, gifts can be seen as an unnecessary expense but there is a way to create wonderful gifts for your guests that are memorable and within your budget.

If your event is in the Bordeaux wine region, we can have a conversation with some of the smaller independent vineyards to create a unique bottle of wine specially for your event. Technology is also fantastic. Instead of having to print invitations and send them, why not provide special wristbands with a RFID chip in the band so that when people arrive, they present their band for scanning to be allowed in.
